

## American Partisan Mission Statement

American Partisan will provide those interested in preserving Western Civilization with the very best analysis, information and tools to accomplish that objective. No exception...no compromise...no surrender.

## American Partisan Vision Statement

- We will be the very best source for American Partisans with relevant reviews of gear, firearms and communications equipment, foreign and domestic intelligence summaries and political commentary.
- We will provide articles to American Partisans that are honest, accurate and thought provoking, presented by experts. We will challenge the status quo and provide a cogent, intellectually honest alternative to the chaos, debauchery and deception that are becoming the new normal in Western nations.
- We will give men and women the tools required to prevail against communists, socialists and anarchists on the intellectual, political and physical battlefield. We realize they represent an existential threat to our way of life and continued existence, and are irreconcilable with civilization, decency and order.
